

Babe

*(words and music Lee Maddeford)*

I've got everything i want babe  
I've got everything i need  
Got your little hands in mine babe  
And all these little mouths to feed

Ain't gonna do you no harm babe  
It's just me and you  
I'm just going out with the boys babe  
Yeah you know it's true

But sometimes i just feel like being alone  
Somtimes i just feel like being on my own

And in the morning when i rise dear  
Your the only girl that's on my mind  
There ain't another that comes near dear  
You're all i ever hoped to find

Your eyes are sweet as sugarcane dear  
Your skins as soft as the moon  
Yes your the reason that i'm here dear  
Like flowers in the month of june

But sometimes i just feel like being alone  
Somtimes i just feel like being on my own

And even though i need this time dear  
To be with other friends that help me through  
Your still the center of my life dear  
And i'll always be here with you
