

Hey Joe

*(words and music Lee Maddeford)*

Hey Joe i'd like to ask you a favor  
You know that you're my dearest dearest dear  
But this favor it's just for you to savor  
So come here and let me whisper in your ear

There are women who need a man who works harder  
To pay the bills dress up nice and be polite  
But what i need from you is an understanding father  
To help me all through the night

You got what it takes i know that you can help me  
You give me the shakes  
From my toes up through my spine  
So come on joe and do me a favor  
I know it'll be just fine
