

Hey Joe

(words and music Lee Maddeford)

Hey Joe i'd like to ask you a favor
You know that you're my dearest dearest dear
But this favor it's just for you to savor
So come here and let me whisper in your ear

There are women who need a man who works harder
To pay the bills dress up nice and be polite
But what i need from you is an understanding father
To help me all through the night

You got what it takes i know that you can help me
You give me the shakes
From my toes up through my spine
So come on joe and do me a favor
I know it'll be just fine
