

If this is life

If this is life then i don't want it
if this is love then set me free
if there is hope then tell me where to find it
give me some light and help me see

we sing and dance to pass the hours
we play with time as if it's free
and though i'm sad i have an understanding
that what we need is just to be

REFRAIN

this wind which blows
from the northern shore
and brings his song into the land
is never sure what he is looking for
but rolls along while he can

and every heart must find a reason
a truth that helps to carry on
the strength to stay upon the road that leads to
a place we feel where we belong

REFRAIN

If this is life then i don't want it
if this is love then set me free
if there is hope then tell me where to find it
give me some light and help me see
