

See the world around you  
*(words and music Lee Maddeford)*

Your heart beats like the setting sun  
Your hand in mine is never known  
You try to see the world as one  
But look at all the seeds you've sown

Your soul is singing like a dove  
Your eyes are soft as silver light  
My arms are reaching for your love  
Try not to shiver in the night

My life is turning like the planets round your heart  
As i try to hear the words you say

Try to see the world around you  
Try to look into your life  
Try to see the love that's in your heart

And when you smile i see the joy  
That i have always tried to give  
And though i know not what it's for  
I try to live the life you live
